WHO WE ARE? BACKGROUND AND HISTORY

Established in 1996, The CPD Certification Service is the independent CPD accreditation centre working across all sectors, disciplines and further learning applications.

Our unique experience and history working with training providers, professional bodies, academic institutions and corporate organisations enables us to support organisations seeking authorative accreditation for their CPD activities.

Thousands of CPD training courses, events, e-learning programs, conferences, workshops and seminars are formally accredited by us every year adding significant value for audiences and providers alike.

We evaluate further learning activities to the highest standards. Hundreds of thousands recognise our CPD Certified symbol as the qualitative benchmark that, not only reflects, but also sets those standards.

WHAT WE DO?

The CPD Certification Service supports the Continuing Professional Development policies of institutional and professional organisations on an increasingly global basis. Our CPD quality marks are protected by international copyright legislation. CPD submissions are assessed and accredited against the universally accepted structured checklist which the CPD Service has developed over the past 20+ years. The process takes an impartial and objective overview of structure and value to ensure full conformity to CPD guidelines.

Certifying your CPD materials follows a simple process. The CPD Service provides different membership levels to suit your needs and your budget. Membership levels are determined by an initial dialogue resulting in recommendations for your most effective routes to market. CPD members are able to utilise key features of CPD membership which helps to support business, marketing and training objectives.

- · Accreditation of courses & events, from 5-250+ activities a year
- $\cdot\,$ Licence to use CPD Member logo on company marketing materials
